

# FROM WASTE TO FUNCTIONAL PROGRAM

**CREATING SOMETHING NEW FROM DISCARDED MATERIAL**

## Workshop Objective

From waste to functional art wants to turn unwanted or unused items into functional, practical, and artistic creations by extending the life of usable materials, creative reuse diverts waste from going to the trash. In this workshop participants will learn how to reuse materials creatively instead of disposing of them.

## Workshop Overview

In this program, we will invite participants to elaborate creative productions that make use of waste or discarded items. We are surrounded by objects and materials that have value and we do not realize it. Participants will have the opportunity to give functional purpose, a new life, and reuse waste resources.
