SILVIA LEVENSON WORKSHOP

WORKSHOP FOR PRINTING IMAGES ON CERAMIC TILES

Screen printing is a procedure and a very versatile technique. It is used by industries, craftsmen, and artists, and can be applied by printing pictures on different materials like t-shirts, paper, glass, or ceramic.

Craft & Trade Academy in collaboration with the artist Silvia Levenson are presenting a workshop inviting participants to learn and create this technique.

Workshop Objective

To introduce the participants to a new technique on ceramic tiles. Also, gives the opportunity for participants to create and design their own piece, using their creative talents. They will gain a recognition and sense of community by working in collaborating on creating a mural that will be exposed at the end of the workshop in the lecture that Silvia Levenson will do at the Mint Museum on Sunday, May 21st.

Project

Each participant will create an individual piece of art, representing their own vision, values, and personal perspectives. This individual piece of art will be part of a big collaboration mural with the intention to represent the diversity and integrity of the community.

Benefits & Outcomes

• Learn a new technique which involves printing an artwork on ceramic tiles.
• Learn a different way of self-expression, and they will gain recognition from the community for their work.
• Increase their social skills by working together in collaboration with others.

Workshop

One week-long workshop, that will be held at Craft & Trade Academy and directed by the artist, Silvia Levenson.
Participants will be divided into groups (morning and afternoon) and the classes will last three hours.

How much does this cost?

Financial assistance is available to cover anywhere from 50% - 100% of the cost of the program. Please contact the Academy to find out what you may qualify for!
